Item 4 Advisory Business

- A. HighMark Wealth Management LLC (the “Registrant”) is a limited liability company formed in July of 2012 in the State of Minnesota. The Registrant became a Securities and Exchange Commission registered Investment Adviser Firm in July 2012. The Registrant is primarily owned by Todd Arens. Patrick Sullivan is a minority owner of the Registrant.
- B. As discussed below, the Registrant offers to its clients (individuals, high net worth individuals, and retirement plans) investment advisory services on a discretionary or non-discretionary basis and, to the extent specifically requested by a client, financial planning and related consulting services.

INVESTMENT ADVISORY SERVICES

The client can determine to engage the Registrant to provide discretionary or non-discretionary investment advisory services on a wrap-fee basis (except in limited circumstances for retirement plan advisory services-engagements for which the Registrant does not maintain trading authority-*See below*). The Registrant’s annual investment advisory fee is based upon a percentage (%) of the market value of the assets placed under the Registrant’s management (between 0.50% and 1.50%) in accordance with the fee schedule set forth at Item 5 below, a copy of which is also attached to the *Investment Advisory Agreement* between the Registrant and the client.

Registrant's annual investment advisory fee shall include investment management services, and, to the extent specifically requested by the client, shall also generally include (*see* exceptions below) financial planning and related consulting services. **Please Note:** The Registrant **does not** serve as an attorney or accountant, and no portion of our financial planning or consulting services should be construed as legal or accounting services. Accordingly, the Registrant **does not** prepare estate planning documents or tax returns.

HIGHMARK WEALTH MANAGEMENT WRAP PROGRAM

The Registrant provides investment management services on a wrap fee basis in accordance with the Registrant’s investment management wrap fee program (the “Program”) (except in limited circumstances for retirement plan advisory consulting services-engagements for which the Registrant does not maintain trading authority - *See below*). The services offered under, and the corresponding terms and conditions pertaining to, the Program are discussed in the Wrap Fee Program Brochure a copy of which is presented to all prospective Program participants. Under the Program, the Registrant is able to offer participants discretionary or non-discretionary investment management services, for a single specified annual advisory fee set forth at Item 5 below, inclusive of trade execution (excluding mark-ups and mark-downs), custody, reporting, and investment management fees (**excluding Independent Manager fees-see below**). The terms and conditions for client participation in the Program are set forth in detail in the Wrap Fee Program Brochure, which is presented to all prospective Program participants in accordance with the disclosure requirements of Part 2A Appendix I of Form ADV. All prospective Program participants should read both the Registrant’s Brochure and the Wrap Fee Program Brochure, and ask any corresponding questions that they may have, prior to participation in the Program.

Fidelity serves as the custodians for Program accounts (*see* disclosure at Item 12 below). Please note: Beginning in 2020, Fidelity ceased charging transaction fees on individual equity transactions including ETFs. The Registrant invested the transaction fee savings

for the benefit of its clients. The savings enabled the Registrant to engage a nationally recognized investment consulting firm to assist the Registrant with its asset allocation strategies for its clients.

Wrap Program-Conflict of Interest. Registrant provides services on a wrap fee basis as a wrap program sponsor. Under Registrant's wrap program, the client generally receives investment advisory services, the execution of securities brokerage transactions, custody and reporting services for a single specified fee. Participation in a wrap program may cost the client more or less than purchasing such services separately. The terms and conditions of a wrap program engagement are more fully discussed in Registrant's Wrap Fee Program Brochure. **Conflict of Interest:** Because wrap program transaction fees and/or commissions are being paid by Registrant to the account custodian/broker-dealer, Registrant could have an economic incentive to minimize the number of trades in the client's account. *See* separate Wrap Fee Program Brochure. **ANY QUESTIONS:** Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding a wrap fee arrangement and the corresponding conflict of interest a wrap fee arrangement may create.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

To the extent specifically requested by a client, the Registrant may determine to provide financial planning and/or consulting services (including investment and non-investment related matters such as estate planning, insurance planning, etc.) on a stand-alone fee basis.

Please Note: The Registrant **does not** serve as an attorney or accountant, and no portion of our services should be construed as legal or accounting services. Accordingly, the Registrant **does not** prepare estate planning documents or tax returns. Prior to engaging the Registrant to provide planning or consulting services on a stand-alone separate fee basis, clients are generally required to enter into a *Financial Planning and Consulting Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client prior to Registrant commencing services. If requested by the client, Registrant may recommend the services of other professionals for implementation purposes, including the services of the Registrant's representatives, in their individual capacities, as licensed insurance agents or as registered representatives of Purshe Kaplan Sterling Investments ("PKS"). (*See* disclosure below at Item 5 and 10.C, including corresponding *conflicts of interest*). The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant. Moreover, it remains the client's responsibility to promptly notify the Registrant if there is ever any change in the client's financial situation or investment objectives for the purpose of reviewing/evaluating/revising Registrant's previous recommendations and/or services. **Please Note:** If the client engages any professional, recommended or otherwise, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from the engaged professional. At all times, the engaged licensed professional(s), and not Registrant, shall be responsible for the quality and competency of the services provided.

RETIREMENT PLAN CONSULTING

The Registrant also provides retirement plan advisory services, pursuant to which it assists sponsors of self-directed retirement plans with the selection and/or monitoring of investment alternatives (generally open-end mutual funds and ETFs) from which plan

participants shall choose in self-directing the investments for their individual plan retirement accounts. In addition, to the extent requested by the plan sponsor, the Registrant shall also provide participant education designed to assist participants in identifying the appropriate investment strategy for their retirement plan accounts. The terms and conditions of the engagement, including the fee arrangement per the fee schedule set forth at Item 5 below, shall generally be set forth in a *Retirement Plan Services Agreement* between the Registrant and the plan sponsor. **Please Note:** The Registrant does not manage, nor maintain trading authority for, plan assets. The plan (and/or its participants) pay an advisory fee to the Registrant. To the extent that the account custodian imposes transaction fees for plan transactions, the transaction fees shall be assessed against the participant's account.

MISCELLANEOUS

Non-Investment Consulting/Implementation Services. If specifically requested by the client, the Registrant will generally provide financial planning and related consulting services regarding matters such as tax and estate planning, insurance, etc. Registrant will generally provide such consulting services inclusive of its advisory fee set forth at Item 5 below (exceptions could occur based upon assets under management, extraordinary matters, special projects, stand-alone planning engagements, etc. for which Firm may charge a separate or additional fee). **Please Note:** Registrant believes that it is important for the client to address financial planning issues on an ongoing basis. Registrant's advisory fee, as set forth at Item 5 below, will remain the same regardless of whether or not the client determines to address financial planning issues with Registrant. **Please Also Note:** Registrant **does not** serve as an attorney, accountant, or insurance agent, and no portion of our services should be construed as same. Accordingly, the Registrant **does not** prepare estate planning documents or tax returns. To the extent requested by a client, the Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e., attorneys, accountants, insurance, etc.), including representatives of the Registrant in their separate registered and/or licensed capacities as discussed below at Items 5 and 10, including corresponding *conflicts of interest*. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant. **Please Note:** If the client engages any professional, recommended or otherwise, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from the engaged professional. At all times, the engaged licensed professional(s), and not Registrant, shall be responsible for the quality and competency of the services provided. **Please Also Note:** It remains the client's responsibility to promptly notify the Registrant if there is ever any change in his/her/its financial situation or investment objectives for the purpose of reviewing/evaluating/revising Registrant's previous recommendations and/or services.

Independent Managers. Registrant may allocate (and/or recommend that the client allocate) a portion of a client's investment assets among unaffiliated independent investment managers in accordance with the client's designated investment objective(s). The *Independent Manager[s]* maintain day-to-day responsibility for the active discretionary management of the allocated assets. The Registrant shall continue to render investment advisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation and client investment objectives. Factors that the Registrant considers in recommending *Independent Manager[s]* include the client's designated investment objective(s), management style, performance, reputation, financial

strength, reporting, pricing, and research. **Please Note:** The investment management fee charged by the *Independent Manager[s]* is separate from, and in addition to, Registrant's advisory fee as set forth in the fee schedule at Item 5 below. **Please Further Note:** One of the *Independent Manager[s]* recommended by the Registrant is FirstLight Asset Management ("FirstLight"), the principal of which is the brother of Registrant's principal, Todd Arens. As result of the relationship, the recommendation to engage FirstLight presents a **conflict of interest**. Registrant will not engage FirstLight on a discretionary basis. Rather, the client must execute a separate agreement with FirstLight, as well as a separate Conflict Acknowledgment. No client is under any obligation to engage FirstLight. **ANY QUESTIONS:** Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the allocation of account assets to an Independent Manager(s), including the specific additional fee to be charged by such Independent Manager(s).

Cybersecurity Risk. The information technology systems and networks that Registrant and its third-party service providers use to provide services to Registrant's clients employ various controls, which are designed to prevent cybersecurity incidents stemming from intentional or unintentional actions that could cause significant interruptions in Registrant's operations and result in the unauthorized acquisition or use of clients' confidential or non-public personal information. Clients and Registrant are nonetheless subject to the risk of cybersecurity incidents that could ultimately cause them to incur losses, including for example: financial losses, cost and reputational damage to respond to regulatory obligations, other costs associated with corrective measures, and loss from damage or interruption to systems. Although Registrant has established its systems to reduce the risk of cybersecurity incidents from coming to fruition, there is no guarantee that these efforts will always be successful, especially considering that Registrant does not directly control the cybersecurity measures and policies employed by third-party service providers. Clients could incur similar adverse consequences resulting from cybersecurity incidents that more directly affect issuers of securities in which those clients invest, broker-dealers, qualified custodians, governmental and other regulatory authorities, exchange and other financial market operators, or other financial institutions.

Reporting Services. Registrant can also provide account reporting services, which can incorporate client investment assets that are not part of the assets that Registrant manages (the "Excluded Assets"). Unless agreed to otherwise, **the client and/or his/her/its other advisors that maintain trading authority, and not Registrant, shall be exclusively responsible for the investment performance of the Excluded Assets.** Unless also agreed to otherwise, Registrant does not provide investment management, monitoring or implementation services for the Excluded Assets. If the Registrant is asked to make a recommendation as to any Excluded Assets, the client is under absolutely no obligation to accept the recommendation, and Registrant shall not be responsible for any implementation error (timing, trading, etc.) relative to the Excluded Assets. The client can engage Registrant to provide investment management services for the Excluded Assets pursuant to the terms and conditions of the *Investment Advisory Agreement* between Registrant and the client.

- **emoney.** In the event that the Registrant provides the client with access to an unaffiliated vendor's website such as *emoney*, and the site provides access to information and/or concepts, including financial planning, the client, should not, in any manner whatsoever, infer that such access is a substitute for services provided by the Registrant. Rather, if the client utilizes any such content, the client does so separate and independent of the Registrant.

Please Note: Retirement Rollovers-Potential for Conflict of Interest: A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If Registrant recommends that a client roll over their retirement plan assets into an account to be managed by Registrant, such a recommendation creates a conflict of interest if Registrant will earn new (or increase its current) compensation as a result of the rollover. If Registrant provides a recommendation as to whether a client should engage in a rollover or not (whether it is from an employer's plan or an existing IRA), Registrant is acting as a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. **No client is under any obligation to roll over retirement plan assets to an account managed by Registrant, whether it is from an employer's plan or an existing IRA. Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the potential for conflict of interest presented by such rollover recommendation.**

Custodian Charges-Additional Fees. The specific broker-dealer/custodian could depend upon the scope and nature of the services required by the client and/or the direction of the client. As discussed below at Item 12 below, when requested to recommend a broker-dealer/custodian for client accounts, Registrant generally recommends that *Fidelity* serve as the broker-dealer/custodian for client investment management assets. The specific broker-dealer/custodian recommended could depend upon the scope and nature of the services required by the client. Broker-dealers such as *Fidelity* charge brokerage commissions, transaction, and/or other type fees for effecting certain types of securities transactions (i.e., including transaction fees for certain mutual funds, dealer spreads, and mark-ups and mark-downs charged for fixed income transactions, etc.). The types of securities for which transaction fees, commissions, and/or other type fees (as well as the amount of those fees) shall differ depending upon the broker-dealer/custodian. While certain custodians, including *Fidelity* generally (with exceptions) do not currently charge fees on individual equity transactions (including ETFs), others do. **Please Note:** there can be no assurance that *Fidelity* will not change its transaction fee pricing in the future. **Please Also Note:** *Fidelity* may also assess fees to clients who elect to receive trade confirmations and account statements by regular mail rather than electronically.

Please Note-Use of Mutual Funds and Exchange Traded Funds: Most mutual funds and exchange traded funds are available directly to the public. Thus, a prospective client can obtain many of the mutual funds that may be recommended and/or utilized by Registrant independent of engaging Registrant as an investment advisor. However, if a prospective client determines to do so, he/she will not receive Registrant's initial and ongoing investment advisory services. **Separate Fees:** All mutual funds (and exchange traded funds) impose fees at the fund level (e.g. management fees and other fund expenses). All mutual fund fees are separate from, and in addition to, Registrant's wealth management fee as described at Item 5 below. **Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the above.**

Cash Sweep Accounts. Certain account custodians can require that cash proceeds from account transactions or new deposits, be swept to and/or initially maintained in a

specific custodian designated sweep account. The yield on the sweep account will generally be lower than those available for other money market accounts. When this occurs, to help mitigate the corresponding yield dispersion, Registrant shall (usually within 30 days thereafter) generally (with exceptions) purchase a higher yielding money market fund (or other type security) available on the custodian's platform, unless Registrant reasonably anticipates that it will utilize the cash proceeds during the subsequent 30-day period to purchase additional investments for the client's account. Exceptions and/or modifications can and will occur with respect to all or a portion of the cash balances for various reasons, including, but not limited to the amount of dispersion between the sweep account and a money market fund, the size of the cash balance, an indication from the client of an imminent need for such cash, or the client has a demonstrated history of writing checks from the account. **Please Note:** The above does not apply to the cash component maintained within a Registrant actively managed investment strategy (the cash balances for which shall generally remain in the custodian designated cash sweep account), an indication from the client of a need for access to such cash, assets allocated to an unaffiliated investment manager, and cash balances maintained for fee billing purposes. **Please Also Note:** The client shall remain exclusively responsible for yield dispersion/cash balance decisions and corresponding transactions for cash balances maintained in any Registrant unmanaged accounts.

Please Note: Cash Positions. Registrant continues to treat cash as an asset class. As such, unless determined to the contrary by Registrant, all cash positions (money markets, etc.) shall continue to be included as part of assets under management for purposes of calculating Registrant's advisory fee. At any specific point in time, depending upon perceived or anticipated market conditions/events (there being **no guarantee** that such anticipated market conditions/events will occur), Registrant may maintain cash positions for defensive purposes. In addition, while assets are maintained in cash, such amounts could miss market advances. Depending upon current yields, at any point in time, Registrant's advisory fee could exceed the interest paid by the client's money market fund. **ANY QUESTIONS: Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective may have regarding the above fee billing practice.**

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, mutual fund manager tenure, style drift, account additions/withdrawals, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when Registrant determines that changes to a client's portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity. Of course, as indicated below, there can be no assurance that investment decisions made by Registrant will be profitable or equal any specific performance level(s).

Other Assets. A client may:

- hold securities that were purchased at the request of the client or acquired prior to the client's engagement of the Registrant. Generally, with potential exceptions, the Registrant does not/would not recommend nor follow such securities, and absent mitigating tax consequences or client direction to the contrary, would prefer to liquidate such securities. **Please Note:** If/when liquidated, it should not be assumed that the replacement securities purchased by the Registrant will outperform the liquidated positions. To the contrary, different types of investments

involve varying degrees of risk, and there can be no assurance that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s). In addition, there may be other securities and/or accounts owned by the client for which the Registrant does not maintain custodian access and/or trading authority; and,

- hold other securities and/or own accounts for which the Registrant does not maintain custodian access and/or trading authority.

Corresponding Services/Fees: When agreed to by the Registrant, the Registrant shall: (1) remain available to discuss these securities/accounts on an ongoing basis at the request of the client; (2) monitor these securities/accounts on a regular basis, including, where applicable, rebalancing with client consent; (3) shall generally consider these securities as part of the client's overall asset allocation; and, (4) report on such securities/accounts as part of regular reports that may be provided by the Registrant; and, (5) include the market value of all such securities for purposes of calculating advisory fee.

Please Note: Socially Responsible (ESG) Investing Limitations. *Socially Responsible Investing* involves the incorporation of **Environmental, Social and Governance** ("ESG") considerations into the investment due diligence process. ESG investing incorporates a set of criteria/factors used in evaluating [potential investments](#): Environmental (i.e., considers how a company safeguards the environment); Social (i.e., the manner in which a company manages relationships with its employees, customers, and the communities in which it operates); and Governance (i.e., company management considerations). The number of companies that meet an acceptable ESG mandate can be limited when compared to those that do not, and could underperform broad market indices. Investors must accept these limitations, including potential for underperformance. As with any type of investment (including any investment and/or investment strategies recommended and/or undertaken by Registrant), there can be no assurance that investment in ESG securities or funds will be profitable, or prove successful. Registrant does not maintain or advocate an ESG investment strategy, but will seek to employ ESG if directed by a client to do so. If implemented, Registrant shall rely upon the assessments undertaken by the unaffiliated mutual fund, exchange traded fund or separate account manager to determine that the fund's or portfolio's underlying company securities meet a socially responsible mandate.

WE DON'T RECOMMEND Cryptocurrency: For clients who want exposure to cryptocurrencies, including Bitcoin, the Registrant, will advise the client to consider a potential investment in corresponding exchange traded securities, or an allocation to separate account managers and/or private funds that provide cryptocurrency exposure. Crypto is a digital currency that can be used to buy goods and services, but uses an online ledger with strong cryptography (i.e., a method of protecting information and communications through the use of codes) to secure online transactions. Unlike conventional currencies issued by a monetary authority, cryptocurrencies are generally not controlled or regulated and their price is determined by the supply and demand of their market. Because cryptocurrency is currently considered to be a speculative investment, the Registrant will not exercise discretionary authority to purchase a cryptocurrency investment for client accounts. Rather, a client must expressly authorize the purchase of the cryptocurrency investment. **Please Note:** The Registrant **does not** recommend or advocate the purchase of, or investment in, cryptocurrencies. The Registrant considers such an investment to be **speculative**. **Please Also Note:** Clients who authorize the purchase of a cryptocurrency investment must be prepared for the potential for **liquidity constraints**.

extreme price volatility and complete loss of principal.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains his/her/its responsibility to promptly notify the Registrant if there is ever any change in his/her/its financial situation or investment objectives for the purpose of reviewing/evaluating/revising Registrant's previous recommendations and/or services.

Please Note: Investment Risk. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by Registrant) will be profitable or equal any specific performance level(s).

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant's services.

Except for *Retirement Plan Services* engagements, the Registrant only offers wrap fee accounts. When managing a client's account on a wrap fee basis, the Registrant shall receive as payment for its investment advisory services, the balance of the wrap fee after all other costs incorporated into the wrap fee have been deducted. **Please Note: Wrap Program Sponsor:** Except for *Retirement Plan Services* engagements, the Registrant assumes all trading costs in the management of client accounts. The Registrant makes transactions based upon client needs and market conditions, without consideration of transaction costs. The Registrant would not look at suitability, trading volume, or cash balances any differently than if it managed client assets on an unbundled (non-wrap) basis. **Neither the Registrant, nor any of its representatives, receive any 12b-1 fees, or any other type of compensation from any mutual fund or ETF sponsor.** The conflicts of interest inherent in a wrap program are disclosed on this Brochure and the corresponding Wrap Program Brochure. **ANY QUESTIONS: The Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions regarding its wrap program, including the conflict of interest presented by such program.**

- E. As of February 18, 2025, the Registrant had \$522,831,922 in assets under management on a discretionary basis.

Item 5 Fees and Compensation

- A. The client can determine to engage the Registrant to provide discretionary or non-discretionary investment advisory services on a wrap-fee basis.

INVESTMENT ADVISORY SERVICES

Registrant's negotiable annual investment advisory fee shall generally be based upon a percentage (%) of the market value and type of assets placed under Registrant's management and/or advisement, between 0.50% and 1.50% as follows:

<u>Assets</u>	<u>Annual % Fee</u>
\$0.00 - \$249,999.99	1.50%
\$250,000 - \$499,999.99	1.25%
\$500,000 - \$999,999.99	1.00%
\$1,000,000 - \$2,499,999.99	0.85%
\$2,500,000 - \$4,999,999.99	0.75%
\$5,000,000 - \$9,999,999.99	0.65%
\$10,000,000 - \$99,999,999.99	0.50%

Please Note: Fee Dispersion: Registrant, in its sole discretion, may charge a lesser investment advisory fee, charge a flat fee, waive its fee entirely, or charge a fee on a different interval, based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, complexity of the engagement, anticipated services to be rendered, grandfathered fee schedules, employees and family members, courtesy accounts, competition, negotiations with client, etc.). **Please Note:** As result of the above, similarly situated clients could pay different fees. In addition, similar advisory services may be available from other investment advisers for similar or lower fees. **ANY QUESTIONS:** Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding advisory fees.

Margin Accounts: Risks/Conflict of Interest. Registrant **does not** recommend the use of margin for investment purposes. A *margin account* is a brokerage account that allows investors to borrow money to buy securities and/or for other non-investment borrowing purposes. The broker/custodian charges the investor interest for the right to borrow money and uses the securities as collateral. By using borrowed funds, the customer is employing leverage that will magnify both account gains and losses. Should a client determine to use margin, Registrant will include the entire market value of the margined assets when computing its advisory fee. Accordingly, Registrant's fee shall be based upon a higher margined account value, resulting in Registrant earning a correspondingly higher advisory fee. As a result, the potential of conflict of interest arises since Registrant may have an economic disincentive to recommend that the client terminate the use of margin. **Please Note:** The use of margin can cause significant adverse financial consequences in the event of a market correction. **ANY QUESTIONS: Our Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the use of margin.**

Please Note: Wrap Program Conflict. Participation in the Program may cost more or less than purchasing such services separately. The fee that we charge for participation in the Program may be higher or lower than those charged by other sponsors of comparable wrapfee programs. **Conflict of Interest.** When managing a client's account on a wrap fee basis, we shall receive as payment for our investment advisory services, the balance of the wrap fee after all wrap-fee costs (including account transaction fees) have been deducted. **Accordingly,** we have a **conflict of interest** because we could have an economic incentive to maximize our compensation by seeking to minimize the number of transactions/total costs in the client's account. **Our Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the corresponding conflict of interest a wrap fee arrangement may create.**

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

To the extent requested by a client, the Registrant may determine to provide financial

planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a negotiable stand-alone fee basis, generally ranging from \$150 to \$500 per hour on an hourly rate basis or on a pre-determined fixed fee basis. Prior to engaging the Registrant to provide planning or consulting services, clients are generally required to enter into a *Financial Planning and Consulting Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client prior to Registrant commencing services.

RETIREMENT PLAN CONSULTING

The terms and conditions of the Registrant's retirement plan consulting services, including the applicable fee, shall be set forth in a *Retirement Plan Services Agreement* between the Registrant and the plan sponsor. Retirement plans can engage Registrant to provide Retirement Plan Consulting services for a fixed fee or a fee based on a percentage of plan assets, which fees will vary depending upon the level and scope of the service(s) required and the professional(s) rendering the service, and will generally range from 0.10% to 0.75% of plan assets.

- B. Both Registrant's *Investment Advisory Agreement* and the custodial clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that management fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice. Registrant's annual investment advisory fee shall be prorated and paid quarterly, in advance, based upon the market value of the assets on the last business day of the previous quarter.
- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, the Registrant shall generally recommend that Fidelity serve as the broker-dealer/custodian for client investment management assets. Broker-dealers such as *Fidelity* may charge brokerage commissions and/or transaction fees for effecting certain securities transactions in accordance with its brokerage commission and transaction fee schedule. When the client engages the Registrant on a wrap fee basis, the brokerage commissions and transactions fees are included in the Registrant's wrap fee – *see above* disclosure at Item 4. Non-wrap fee engagements are generally limited to Registrant's *Retirement Plan Services* clients. In addition to Registrant's investment management fee and applicable brokerage commissions and/or transaction fees, the client will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses)-*see above* disclosure at Item 4.
- D. Registrant's annual investment advisory fee shall be prorated and paid quarterly, in advance, based upon the market value of the assets on the last business day of the previous month. Unless otherwise agreed, Registrant generally does not adjust a client's fee in response to account deposits and withdrawals made during a billing period. The Registrant, in its sole discretion, may charge a lesser investment management fee based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, competition, negotiations with client, etc.). Registrant does not adjust its advisory fee for intra-period additions to, or withdrawals from, client accounts.

The *Investment Advisory Agreement* between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the *Investment Advisory Agreement*. Upon termination, the Registrant shall refund the pro-

rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing month.

- E. **Commission Transactions.** In the event that the client desires, the client can engage certain of the Registrant's representatives, in their separate individual capacities as registered representatives of *PKS*, a FINRA member broker-dealer, to implement investment recommendations on a commission basis. In the event the client chooses to purchase investment products through *PKS*, *PKS* will charge brokerage commissions to effect securities transactions, a portion of which commissions *PKS* shall pay to Registrant's Associated Persons, as applicable. The brokerage commissions charged by *PKS* may be higher or lower than those charged by other broker-dealers. In addition, *PKS*, as well as Registrant's representatives, relative to commission mutual fund purchases, may also receive additional ongoing 12b-1 trailing commission compensation directly from the mutual fund company during the period that the client maintains the mutual fund investment.

1. **Conflict of Interest:** The recommendation that a client purchase a commission product from *PKS* presents a ***conflict of interest***, as the receipt of commissions may provide an incentive to recommend investment products based on commissions received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from *PKS*. **The Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective may have regarding the above conflict of interest.**
2. **Please note:** Clients may purchase investment products recommended by Registrant through other, non-affiliated broker dealers or agents.
3. The Registrant does not receive more than 50% of its revenue from advisory clients as a result of commissions or other compensation for the sale of investment products the Registrant recommends to its clients.
4. When Registrant's representatives sell an investment product on a commission basis, the Registrant does not charge an advisory fee in addition to the commissions paid by the client for such product. When providing services on an advisory fee basis, the Registrant's representatives do not also receive commission compensation for such advisory services. **However,** a client may engage the Registrant to provide investment management services on an advisory fee basis and separate from such advisory services purchase an investment product from Registrant's representatives on a separate commission basis.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant's clients shall generally include individuals, high net worth individuals, and retirement plans. Registrant does not currently impose a minimum account size or minimum annual fee for its services. **Please Note:** Similar advisory services may be available from other investment advisers for similar or lower fees.

Item 8 **Methods of Analysis, Investment Strategies and Risk of Loss**

A. The Registrant may utilize the following methods of security analysis:

- Charting - (analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices)
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
- Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)
- Trading (securities sold within thirty (30) days)

Please Note: Investment Risk. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s).

B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks.

However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases, Short Term Purchases, and Trading - are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer-term investment strategy. Trading, an investment strategy that requires the purchase and sale of securities within a thirty (30) day investment time period involves a very short investment time period but will incur higher transaction costs when compared to a short term investment strategy and substantially higher transaction costs than a longer term investment strategy.

Please Note: The Registrant evaluates and selects investments for inclusion in client portfolios only after applying its internal due diligence process. As part of this process, Registrant may purchase research from other investment advisers, including model portfolio holdings and recommendations of those firms. The Registrant does not discuss

any specific client accounts, trading activity, or holdings with any research provider, and Registrant maintains exclusive responsibility for ensuring that any actions taken with respect to its client accounts are in accordance with that client's designated investment objective and any applicable restrictions. Registrant is under no obligation to accept or act upon any research, third party model portfolio allocations, or investment recommendations provided to Registrant by any research provider.

- C. Currently, the Registrant allocates client investment assets on a discretionary basis primarily among mutual funds, individual equities, exchange traded funds and separate account managers in accordance with the client's designated investment objective(s).

Risks associated with these asset types include:

1. Interest-rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
2. Market Risk: The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk may be caused by external factors independent of the fund's specific investments as well as due to the fund's specific investments. Additionally, each security's price will fluctuate based on market movement and emotion, which may, or may not be due to the security's operations or changes in its true value. For example, political, economic and social conditions may trigger market events which are temporarily negative, or temporarily positive.
3. Inflation Risk: When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
4. Reinvestment Risk: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
5. Financial Risk: Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
6. Market Risk (Systematic Risk): Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of your portfolio will fluctuate, there is a risk that you will lose money.
7. Unsystematic Risk: Unsystematic risk is the company-specific or industry-specific risk in a portfolio. The combination of systematic (market risk) and unsystematic risk is defined as the portfolio risk that the investor bears. While the investor can do little to reduce systematic risk, he or she can affect unsystematic risk. Unsystematic risk may be significantly reduced through diversification. However, even a portfolio of well-diversified assets cannot escape all risk.
8. Income Risk: Income risk is the risk that falling interest rates will cause the investment's income to decline.

9. **Purchasing Power Risk:** Purchasing power risk is the risk that your investment's value will decline as the price of goods rises (inflation). The investment's value itself does not decline, but its relative value does, which is the same thing. Inflation can happen for a variety of complex reasons, including a growing economy and a rising money supply. Rising inflation means that if you have \$1,000 and inflation rises 5 percent in a year, your \$1,000 has lost 5 percent of its value, as it cannot buy what it could buy a year previous.
10. **Political Risks:** Most investments have a global component, even domestic stocks. Political events anywhere in the world may have unforeseen consequences to markets around the world.
11. **Regulatory Risk:** Changes in laws and regulations from any government can change the market value of companies subject to such regulations. Certain industries are more susceptible to government regulation. Changes in zoning, tax structure or laws impact the return on these investments.
12. **Risks Related to Investment Term:** Securities do not follow a straight line up in value. All securities will have periods of time when the current price of the security is not what we believe it is truly worth. If you require us to liquidate your portfolio during one of these periods, you will not realize as much value as you would have had the investment had the opportunity to regain its value.

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as ETFs and mutual funds are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss. As such, a mutual fund or ETF client or investor may incur substantial tax liabilities even when the fund underperforms.

Shares of mutual funds are distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (e.g., sales loads, purchase fees, redemption fees). The per-share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes in the market value of the fund's holdings. The trading prices of a mutual fund's shares can differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed-based ETFs and more frequently for actively managed ETFs. However, certain inefficiencies can cause the shares to trade at a premium or discount to their pro-rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. While clients and investors may be able to sell their ETF shares on an exchange, ETFs generally only redeem shares directly from shareholders when aggregated as creation units (usually 50,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Margin and Securities Based Loans. Registrant does not generally recommend the use of margin loans or securities-based loans (collectively, “SBLs”) as an investment strategy, in which the client would leverage borrowed assets as collateral for the purchase of additional securities. However, clients retain the ability to establish a margin account with the client’s broker-dealer/custodian or their affiliated banks (each, an “SBL Lender”) to access SBLs for financial planning and cash flow management purposes. For example, clients may elect to borrow money on margin to pay bills or other expenses such as financing the purchase, construction, or maintenance of a real estate project. Unlike a traditional real estate-backed loan, an SBL has the potential benefit of enabling borrowers to access to funds in a shorter period of time, providing greater repayment flexibility, and may also result in the borrower receiving certain tax benefits. Clients interested in learning more about the potential tax benefits of borrowing money on margin should consult with an accountant or tax advisor.

The terms and conditions of each SBL are contained in a separate agreement between the client and the SBL Lender selected by the client, which terms and conditions may vary from client to client. Borrowing funds on margin is not suitable for all clients and is subject to certain risks, including but not limited to those described below. Before agreeing to participate in an SBL program, clients should carefully review the applicable SBL agreement and all risk disclosures provided by the SBL Lender including the initial margin and maintenance requirements for the specific program in which the client enrolls, and the procedures for issuing “margin calls” and liquidating securities and other assets in the client’s accounts. The following describes some of the risks associated with SBLs, which Barrett Capital recommends that clients consider before participating in an SBL program:

1. **Increased Portfolio Risk, Including the Risk for Potential Losses in the Event of a Downturn:** Borrowing money on margin to pay bills or other expenses increases a client’s level of exposure to market risk and volatility. The more money a client borrows on margin, the greater the market risk. This is especially true in the event of a significant downturn in the value of the assets used to collateralize the SBL. In some circumstances, clients may lose more money than they originally invested and borrowed. As the marginable investments in a client’s portfolio provide the collateral for the SBL, the value of that collateral fluctuates according to market activity, while the amount the client borrows stays the same.
2. **The Potential Obligation to Post Collateral or Repay the SBL if the SBL Lender Determines that the Value of Collateralized Securities is No Longer Sufficient to Support the Value of the SBL:** The SBL requires a certain minimum value of equity to continue service of the SBL (the “Maintenance Requirement”). If the value of the client’s portfolio securities decline in value, so does the value of the collateral supporting the SBL. If the value of the SBL collateral declines to an amount where it is no longer sufficient to support the borrower’s line of credit or loan, the SBL Lender will issue a “Maintenance Call” (also referred to as a “margin call”). In that event, the client would be required to post additional collateral or repay the SBL within a specified period of time. The SBL Lender is also commonly entitled to increase its Maintenance Requirement at any time, without having to provide prior written notice to the borrower. As a result, borrowers are subject to risk of repayment of the loan and should be aware of such risks when foregoing a traditional mortgage to finance a real estate purchase.
3. **The Risk that the SBL Lender may Liquidate the Client’s Securities to Satisfy its Demand for Additional Collateral or Repayment:** The SBL Lender commonly reserves the right to render the borrower’s repayment immediately due, and/or terminate the

SBL at any time without cause, at which point, the outstanding SBL balance would become immediately due and payable. However, if the borrower is unable to add additional collateral to their account or repay the loan with readily available cash, the SBL Lender can typically liquidate the borrower's securities and keep the cash to satisfy the Maintenance Call. When liquidating the securities of the borrower's investment portfolio, the SBL Lender usually reserves the right to decide which securities to sell to protect its interests, and is not necessarily required to provide written notice of its intentions to liquidate. Accordingly, clients who borrow money through an SBL should be aware of this risk and that such risk is not limited to the margin in the client's account, which could result in the client having to owe additional money or collateral to the SBL Lender after the positions are liquidated. It is therefore possible that a client can lose more money than what the client originally invested into the portfolio.

4. **Liquidity Risk:** SBLs also have a significant effect on the liquidity of a client's portfolio. Namely, a security (whether an equity, mutual fund or ETF) that is used as collateral for an SBL loses its liquidity as long as the SBL is outstanding. Decreased liquidity increases portfolio risk and restricts a client's access to their funds, which clients should strongly consider before using an SBL.
5. **Impact on Fees:** Registrant's asset-based fees are calculated gross of any outstanding SBL balance. Therefore, Registrant is incentivized to recommend the use of SBLs for client cash needs, as opposed to recommending the client sell securities which are subject to Registrant's asset-based fees.

The Registrant may also allocate investment management assets of its client accounts, on a discretionary basis, among one or more of its asset allocation programs (i.e. Aggressive, Moderately Aggressive, Moderate Growth, Moderate, and Conservative).

Registrant's asset allocation strategies have been designed to comply with the requirements of Rule 3a-4 of the Investment Company Act of 1940. Rule 3a-4 provides similarly managed investment programs, such as Registrant's asset allocation programs, with a non-exclusive safe harbor from the definition of an investment company. In accordance with Rule 3a-4, the following disclosure is applicable to Registrant's management of client assets:

1. **Initial Interview** – at the opening of the account, the Registrant, through its designated representatives, shall obtain from the client information sufficient to determine the client's financial situation and investment objectives;
2. **Individual Treatment** - the account is managed on the basis of the client's financial situation and investment objectives;
3. **Quarterly Notice** – at least quarterly the Registrant shall notify the client to advise the Registrant whether the client's financial situation or investment objectives have changed, or if the client wants to impose and/or modify any reasonable restrictions on the management of the account;
4. **Annual Contact** – at least annually, the Registrant shall contact the client to determine whether the client's financial situation or investment objectives have changed, or if the client wants to impose and/or modify any reasonable restrictions on the management of the account;
5. **Consultation Available** – the Registrant shall be reasonably available to consult with the client relative to the status of the account;
6. **Quarterly Report** – the client shall be provided with a quarterly statement for the

- account for the preceding period;
7. Ability to Impose Restrictions – the client shall have the ability to impose reasonable restrictions on the management of the account, including the ability to instruct the Registrant not to purchase certain securities;
 8. No Pooling – the client’s beneficial interest in a security does not represent an undivided interest in all the securities held by the custodian, but rather represents a direct and beneficial interest in the securities which comprise the account;
 9. Separate Account - a separate account is maintained for the client with the Custodian;
 10. Ownership – each client retains indicia of ownership of the account (e.g. right to withdraw securities or cash, exercise or delegate proxy voting, and receive transaction confirmations).

The Registrant believes that its annual investment management fee is reasonable in relation to: (1) the advisory services provided under the Investment Advisory Agreement; and (2) the fees charged by other investment advisers offering similar services/programs. However, Registrant’s annual investment advisory fee may be higher than that charged by other investment advisers offering similar services/programs. In addition to Registrant’s annual investment management fee, the client will also incur charges imposed directly at the mutual and exchange traded fund level (e.g., management fees and other fund expenses). Please Note: Registrant’s investment programs may involve above-average portfolio turnover which could negatively affect upon the net after-tax gain experienced by an individual client in a taxable account.

Item 9 Disciplinary Information

The Registrant has not been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

- A. As disclosed above in item 5.E, Registrant’s representatives are registered representatives of *PKS*, a FINRA member broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. **Registered Representatives of PKS.** As disclosed above in Item 5 E, Registrant’s representatives are registered representatives of *PKS* and may effect securities brokerage transactions on a fully disclosed commission basis.

Licensed Insurance Agents. The Registrant’s representatives, in their individual capacities, are licensed insurance agents, and may recommend the purchase of certain insurance-related products on a commission basis. As referenced in Item 4 above, clients can engage certain of Registrant’s representatives to effect insurance transactions on a commission basis.

Conflict of Interest: The recommendation by Registrant’s representatives that a client purchase a securities or insurance commission product presents a ***conflict of interest***, as the receipt of commissions may provide an incentive to recommend investment products based on commissions received, rather than on a particular client’s need. No client is under

any obligation to purchase any commission products from Registrant's representatives. Clients are reminded that they may purchase investment and/or insurance products recommended by Registrant and/or its representatives through other, non-affiliated registered representatives or insurance agents. **The Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective may have regarding the above conflict of interest.**

- D. The Registrant does not receive, directly or indirectly, compensation from investment advisors that it recommends or selects for its clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant *may* buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. Practices such as "scalping" (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, "front-running" (i.e., personal trades executed prior to those of the Registrant's clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant's "Access Persons". The Registrant's securities transaction policy requires that Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or his/her designee with a written report of the Access Person's current securities holdings at least once each twelve (12) month period thereafter on a date the Registrant selects.

- D. The Registrant and/or representatives of the Registrant *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. As indicated above in Item 11 C, the Registrant has a personal securities transaction policy in place to monitor the personal securities

transaction and securities holdings of each of Registrant's Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment management accounts be maintained at *Fidelity*. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal *Investment Advisory Agreement* with Registrant setting forth the terms and conditions under which Registrant shall manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending *Fidelity* (or another broker-dealer/custodian, investment platform and/or mutual fund sponsor) include historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant's clients shall comply with the Registrant's duty to obtain best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. In the event that a client is not in the Wrap-Fee Program, the brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment management fee. The Registrant's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Non-Soft Dollar Research and Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant can receive from *Fidelity* (or another broker-dealer/custodian, investment platform and/or mutual fund sponsor) without cost (and/or at a discount) support services and/or products, certain of which assist the Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that can be obtained by the Registrant may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

Certain of the above support services and/or products assist the Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist the Registrant to manage and further develop its business enterprise.

Registrant's clients do not pay more for investment transactions effected and/or assets maintained at *Fidelity* as a result of this arrangement. There is no corresponding

commitment made by the Registrant to *Fidelity* or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

The Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the above arrangement and the corresponding conflict of interest presented by such arrangement.

2. The Registrant does not receive referrals from broker-dealers.
 3. **Directed Brokerage.** The Registrant generally recommends that our clients utilize the brokerage and custodial services provided by Fidelity. We may accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and we will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by us. As a result, a client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. **Please Note:** In the event that the client directs us to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that we recommend. Higher transaction costs adversely impact account performance. **Please Also Note:** Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.
- B. **Order Aggregation.** Transactions for each client account generally will be effected independently, unless we decide to purchase or sell the same securities for several clients at approximately the same time. We may (but is not obligated to) combine or "bunch" such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among our clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. We shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant's Principal and/or representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.

- B. The Registrant *may* conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12 above, we can receive from *Fidelity*, without cost (and/or at a discount), support services and/or products. Our clients do not pay more for investment transactions effected and/or assets maintained at Fidelity as result of this arrangement. There is no corresponding commitment made by us to Fidelity or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangements. **The Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the above arrangement and the corresponding conflict of interest presented by such arrangement.**
- B. The Registrant engages promoters to introduce new prospective clients to the Registrant consistent with the Investment Advisers Act of 1940, its corresponding. Rules, and applicable state regulatory requirements. If the prospect subsequently engages the Registrant, the promoter shall generally be compensated by the Registrant for the introduction. Because the promoter has an economic incentive to introduce the prospect to the Registrant, a conflict of interest is presented. The promoter's introduction shall not result in the prospect's payment of a higher investment advisory fee to the Registrant (i.e., if the prospect was to engage the Registrant independent of the promoter's introduction).

Item 15 Custody

Registrant shall have the ability to deduct its advisory fee from the client's custodial account. Clients are provided with written transaction confirmation notices, and a written summary account statement directly from the custodian (i.e., Fidelity, etc.) at least quarterly. **Please Note:** The account custodian does not verify the accuracy of Registrant's advisory fee calculation.

Please Note: To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian. **Please Also Note:** The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal *Investment Advisory Agreement*

with Registrant setting forth the terms and conditions under which Registrant shall manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, **in writing**, on the Registrant's discretionary authority. (i.e., limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$1,200, per client, six months or more in advance.
- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

ANY QUESTIONS: The Registrant's Chief Compliance Officer, Todd Arens, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.
